Presentation Guidelines

1. All presenters of oral presentations must report to the conference manager in advance of each session.
2. Presenters can either use the laptop provided or connect their own laptop to the projector however if you use your own Mac please ensure you have the requisite connector.
3. **You have to send your presentation by email on or before 25.11.2014** to icmrp2014@rsisinternational.org. In the subject you should indicate your name and Unique manuscript ID (UMI). The file name must indicate Unique manuscript ID (UMI). We will send you a confirmation email once we have the presentation in the system. If you have a video or audio file embedded in the presentation we recommend using a standard video and audio codec compatible with Microsoft PowerPoint.
4. Presentation time is critical; each paper is allocated 06 minutes for lecture sessions. This time includes setup and questions from the audience. We recommend that presentation of your slides should take about 06 minutes.
5. Slides attract and hold attention, and reinforce what you say – provided you keep them simple and easy to read. Plan on covering at most 6 points per slide, covered by 6 to 12 spoken sentences.
6. Make sure each of your key points is easy to explain with aid of the material on your slides. Do not read directly from the slide during your presentation. You shouldn't need to prepare a written speech, although it is often a good idea to prepare the opening and closing sentences in advance. It is very important that you rehearse your presentation in front of an audience before you give your presentation.
